

ARCHEOLOGY UP CLOSE

EARLY MAKURIA RESEARCH PROJECT

Join us as Ms. Srienc discusses the state of Polish archaeology in Sudan and her participation in the Early Makuria Research Project

December 15, 2018 3 PM
43 SE Main Street, Ste 228
Minneapolis, MN

Polish archaeologists are one of the leading experts in the Near East as well as Northern Africa. However, of these regions, Nubia in Northern Sudan is at the forefront of Polish archaeological research. The rich and dynamic history of Nubia allow for diverse Polish archaeological missions that continue to excavate monasteries, pyramids, and tumulus cemeteries.
